

2. Installation

Confirmer l'emplacement du boîtier encastrable en fonction de l'entrée et de la sortie d'arrivée d'eau chaude et d'eau froide

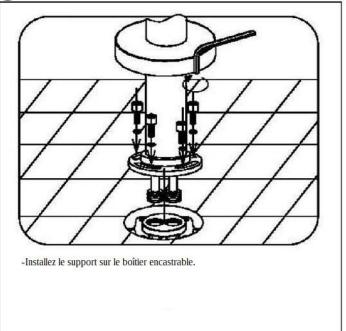

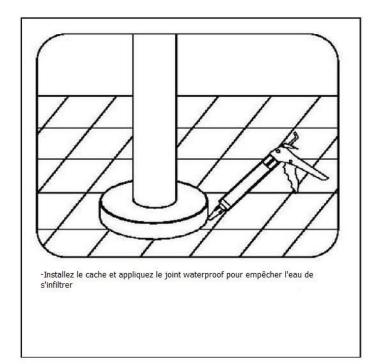

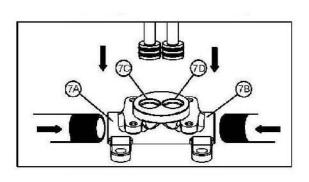

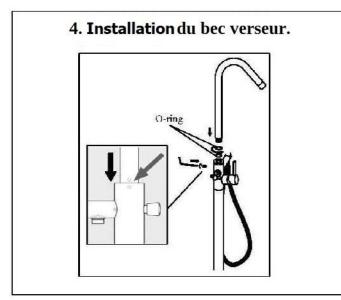

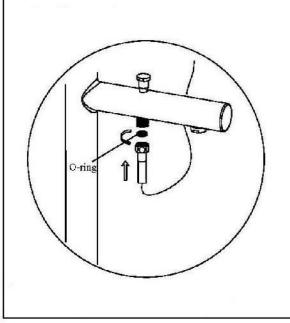

Raccordez l'arrivée d'eau au connecteurs chaud (7A)(7B), et froid(7C) (7D) à l'aide de ruban d'étanchéité.

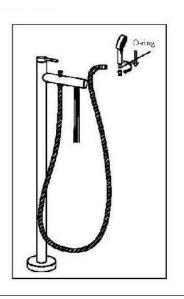

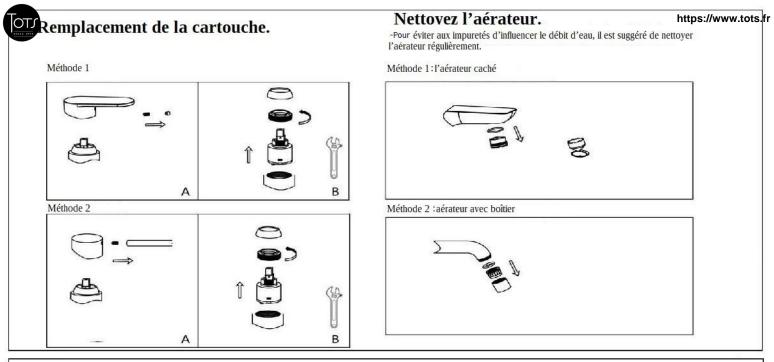

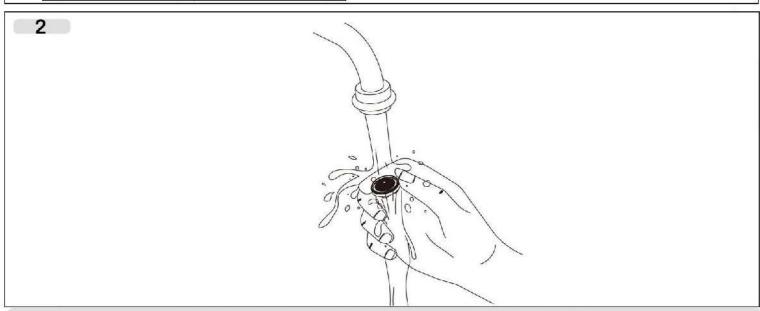

Allumez l'arrivé d'eau chaude et l'eau froide et vérifier qu'il n'y ai pas de fuites.
